POLICY GOVERNANCE

As per the AACSB International accreditation process, the institution has established a Policy Governance framework. The framework is based on the AACSB standards and is designed to ensure that the institution's policies are aligned with its mission and vision. The framework is a living document that is updated regularly to reflect changes in the institution's needs and the AACSB standards.

The Policy Governance framework is a key component of the institution's governance structure. It provides a clear and concise statement of the institution's policies and the principles that guide its operations. The framework is used to inform the development of all institutional policies and to ensure that they are consistent with the institution's mission and vision.
